That video us kinda NSFW. Just a heads up.

Played the original when it was released on the PC... Love it. Old school Zelda-style randomized dungeons with a huge variety of power ups and items.

Pretty hard, too. Definitely one of the better games I've played in the last few years.

It wasn't meant to go up for a few more hours.

#49

FINALLY!

I had played a bit of the original flash version but put off picking up Bol when I heard Rebirth was in development and that it was coming to PS4. I've been following Mr. McMillen's updates with all the new things that are going into this version and it looks fantastic.

I've got mixed feelings about it coming out via PS+ since I'd be fine outright purchasing it, but I'm sure he's getting a great deal from Sony and a PS+ offering means more people can be exposed to the game.

DA:I and now Bol: Rebirth. November is the new October for me, it seems.

#50

Please don't delay it to 2016 in Europe. Nov 5th 2014 would be great.

#51

The video's private now.

#52

Video must have gotten legit shook. Has gone private.

#69

You don't already play it with controls? There was a mod for the game called SpiderMod that had a bunch of fixes for the game, as well as provided controller support. It works far better for me with a

controller, no chance of any mis-hit keys or anything like that.

You can fetch SpiderMod [here](#) if you want to try it out and see what Isaac is like with controls (instead of faffing around with Joy2Key)

Really? The part I enjoyed most was the unlocking. I didn't 100% the original because once I had unlocked everything, the feeling of discovery was gone and cranking out runs with different characters felt kind of grindy.

You can do it with right analog stick if you really want to, but shooting with the face buttons is so much #79

easier and enjoyable. Nothing beats playing Bol on a big screen TV with a controller, apart from playing Rebirth from the looks of it

Full press release if anyone is interested:

Here's a long list of what's in The Binding of Isaac Rebirth

- Over 500 hours of gameplay
- 4 BILLION Seeded runs!
- 20 Challenge runs
- 450+ items, including 160 new unlockables
- Uber secrets
- 10 Playable Characters
- 100+ enemies with new designs
- Over 50 bosses, including tons of new and rare bosses

#90

- Rooms FULL OF POOP!
- Mystic Runes
- Upgradeable shops
- Integrated controller support for popular control pads
- Analog directional movement and speed
- Tons of feature film quality animated endings
- Poop physics
- Over 100 specialized seeds
- 2-Player local co-op
- Over 100 co-op characters
- Dynamic lighting, visual effects, and art direction
- Did we mention poop?
- All-new game engine @60FPS 24/7
- All-new soundtrack and sound design
- Multiple Save slots
- The ultimate roguelike
- A bunch of achievements
- Oh, you know what else? Poop.

More information can be found on the official website at <http://bindingofisaac.com/> or on the Rebirth FAQ page <http://bindingofisaac.com/post/77761...birth-2014-q-a>
